## CD RELEASES & RE-ISSUES JANUARY 2001 – DECEMBER 2003

### "OUR 8,000 BEST SELLERS"

#### ABOUT THIS CATALOGUE

This catalogue lists the most popular items we have sold over the past three years. For easier reading the three year compilation is in one A-Z artist and title formation. We have tried to avoid listing deletions, but as there are around 8,000 titles listed, it is inevitable that we may have inadvertently included some which may no longer be available. For obvious reasons, we do not actually stock all listed titles, but we can acquire them to order within days providing there are no stock problems at the manufacturers. There are obviously tens of thousands of other CDs currently available – most of them we can supply; so if what you require is not listed, you are welcome to enquire.

Please read this catalogue in conjunction with our "CDs AT SPECIAL DISCOUNT PRICES" as some of the more mainstream titles may be available at cheaper prices in that feature. Please note that all items listed on this catalogue are of U.K. manufacture (apart from Imports denoted IM or IMP). Items listed on our Specials are a mix of U.K. and E.C. manufacture; we will supply you the items for the price/manufacturer you chose.
